Please make reference to the self-evaluation, relevant school data, the progress against School Strategic Plan (SSP) goals, targets, and the diagnosis of issues requiring particular attention.	To develop consistency across the whole school, as the classes were running their own programs and there was no consistency across the classrooms. Lacking consistency in length of time allocated to reading instruction and significant variation on curriculum focus and teaching strategies. Consistency in the language used in the classroom and the way assessments were taken. We have had a change in 3 out of 6 classroom teachers from last year.
