School vision	School values	Context and challenges	Intent, rationale and focus
<p>Our goal is for our students to be motivated learners who value themselves and their community and who develop the knowledge and skills to become successful and thrive in all of their life endeavours.</p> <p>To achieve this, all staff follows the school's mission statement: <i>'Knowing exactly what each child knows now and how to teach them what they need to learn next...'</i></p>	<p>Our school is a School Wide Positive Behaviour Support (SWPBS). We teach and practice NEWBEE values of <i>Be a Learner, Be Respectful</i> and <i>Be safe</i>. Paired with the NEWBEE values we also develop the learning dispositions of Resilience, Resourcefulness, Reflectiveness and Reciprocity to enable them to adapt to frequent and substantial changes in their lives through the implementation of Guy Claxton's Building Learning Powers.</p>	<p>Our school has around 140 students who come from Newborough and surrounds. Students experience different social and economic realities, but are almost all from English speaking homes. There are very few ATSI students at our school.</p> <p>The Latrobe Valley is a community in transition and we included in our moral purpose is to prepare all of our learners for a changing world and uncertain future. Consequently our school curriculum guarantees the teaching and learning of the following skills and attributes:</p> <ul style="list-style-type: none"> • creativity & innovation • critical thinking & problem solving • communication & collaboration • using technology & media safely and effectively <p>We build our teacher and leadership capacity by working together in Professional Learning Communities.</p>	<p>Theory of Action</p> <p>If we:</p> <ol style="list-style-type: none"> a) set clear expectations relating to teacher practice, b) build teacher capacity to meet these expectations, and c) monitor the effectiveness of teacher practice, <p>then we will see improved student engagement and learning growth.</p>
